North Karachi Sector 11-E

PROFILE

As a tech enthusiast ready to turn theory into practice, I'm eager to join your company and contribute meaningfully. With a strong foundation in responsibility and organization, coupled with a genuine passion for learning and technology, I'm driven to excel. I look forward to applying my skills and making a positive impact while continuously growing with the company.

KEY COMPETENCIES

NodeJs	JavaScript	C/C++
Express	Laravel	HTML/CSS
MongoDB	PHP	Python

PROFESSIONAL EXPERIENCE

Invision Soutions Inc.

July 2024

Backend Development Intern

Working with Laravel and PHP, focusing on API development. My tasks include designing and implementing APIs for product retrieval using various search filters to enhance data accessibility and efficiency. Additionally, I have integrated JWT-based authentication into the APIs to ensure secure and reliable access control.

PROJECTS

Blogify Web Application

June 2024 - July 2024

NodeJS | Express | MongoDB | EJS

Developed a dynamic blog web application featuring user authentication, blog creation and management, and search capabilities. The application allows users to securely register, log in, and manage their blogs, including sorting and filtering by date. It includes robust error handling to ensure stability. The project demonstrates expertise in full-stack development, from backend logic and database interactions to frontend design and user experience.

Task Up

December 2023

Data Structures - C++

My team and I developed a project TaskUp which is a C++ program designed as a user-focused task scheduler. It utilizes a priority queue data structure and allows users to define prioritization criteria, offering efficient and customizable task management.

Gym Management System

April 2023

Object Oriented Programming - C++

My team and I collaborated on a console based project that serves as a comprehensive platform for gym owners. It facilitates efficient management of gym clients, trainers, inventory, and monetary transactions, streamlining operations for enhanced productivity.

EDUCATION

FAST NUCES

BSCS 2022-Present

Gov. Delhi Science College

Pre Engineering 2020-2022

Hamdard Public School
